(child must be 5 by June 1, 2010)

****Licensed teachers on staff****

Crosslight Christian School is pleased to continue our Summer Camp Enrichment Program for the summer of 2009. The goal of the camp is to provide a quality summer enrichment program with an environment that encourages intellectual, social-emotional, spiritual and physical experiences for the primary school child. This goal will be met by providing a variety of daily activities which will include indoor and outdoor play, games, and teacher directed activities. Teachers are well-trained, licensed professionals who have many years of experience working with young children. It is our goal to provide a safe, fun, enriching summer experience for your child.

Session I: Connect Three (June 21st – June 25th)

Mathematics: The children will have opportunities to build their confidence with numbers through hands-on learning activities that reinforce skills taught during the school year. Children will have the opportunity to create and solve story problems and work on addition and subtraction facts.

Language/Reading: Activities will reinforce basic reading, language and vocabulary skills through the use of writing, hands-on language activities and games. The children will participate in all aspects of literacy: reading, writing, listening and speaking.

Science: The children will have the opportunity to experience science learning activities that will help develop intellectual skills, fine motor skills, comprehension, dexterity, reasoning skills, observation and more while incorporating elements from the language and math components of camp.

Session II: Jump Start (July 19th – July 23rd)

Mathematics: Children will review basic mathematic skills through hands-on activities with the purpose of preparing for the beginning of the next school year.

Language/Reading: The children will participate in author studies and will look at all aspects of creating books through a writer's workshop (drafts, revisions, illustrations and publishing.)

Science: The children will have the opportunity to experience science learning activities that will help develop intellectual skills, fine motor skills, comprehension, dexterity, reasoning skills, observation and more while incorporating elements from the language and math components of camp.
